

## **BJSA Football Complex Safety Blitz a Success**

Nebraska Operation Lifesaver had a huge success at the Bellevue Junior Sports Association (BJSA) Football Complex Sunday, Oct. 23rd, 2016. Volunteers set up the mobile education trailer and a table that had a lot of traffic! It was a beautiful day and we were fortunate to speak to many interested children. My absolute favorite part of that day was the surprise from multiple parents who specifically brought their children into the trailer to be educated on train safety (and even told them to "pay attention" when they got distracted). It was great to see the need for railroad safety education being demonstrated by the public. I enjoyed meeting the other volunteers as well. The mobile education trailer is an excellent tool to get safety information out to the public. It has the attractive interactive component as well as the information provided. Thank you again for everyone's assistance with this event. It was greatly appreciated! I have spoken to the BJSA Director and we will be invited back next season!
